- Touch keys
- Glass-look panel
- Lighting
- 1 – 4 gang
- Bulb symbol keys

LIVING ROOM

Made for the wall.

A flat glass-look panel and one touch key for every light. The WT-50-W sits quietly on the wall until you need it.

WT-50-W · 3 GANG · WARM PLASTER

spark

BEDROOM

Right where you reach.

Two touch keys by the bed: one for the ceiling light, one for the bedside lamp. The white panel stands out on a dark wall.

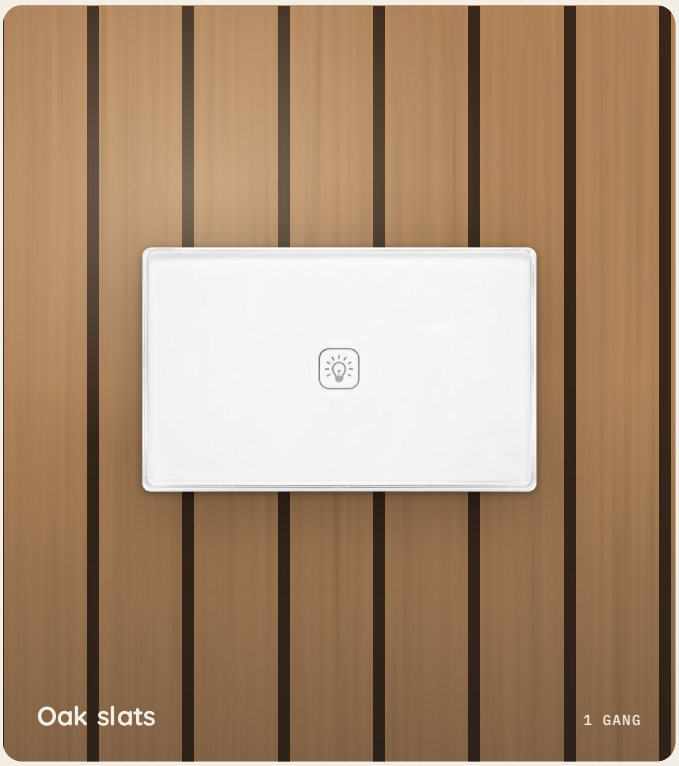
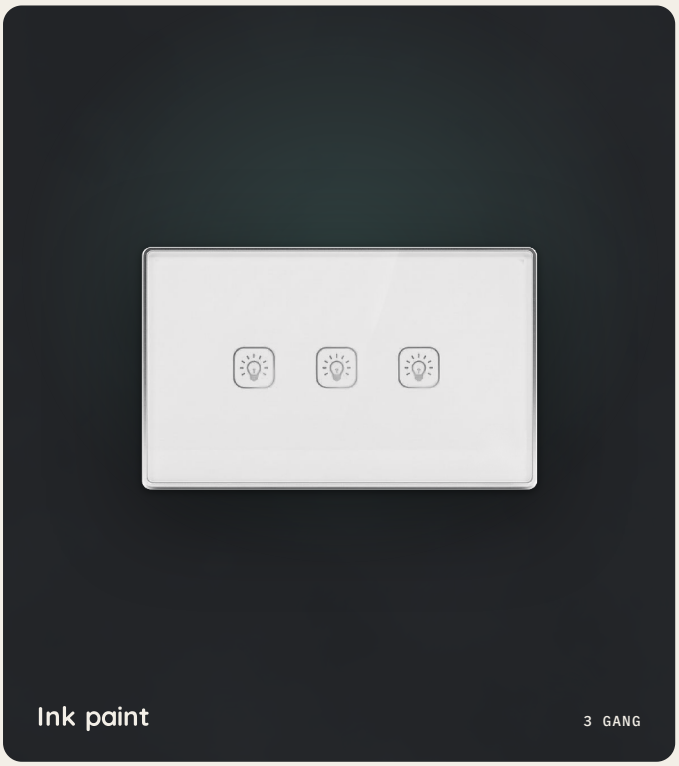
WT-50-W · 2 GANG · SLATE PAINT

DESIGN

One design. Every wall.



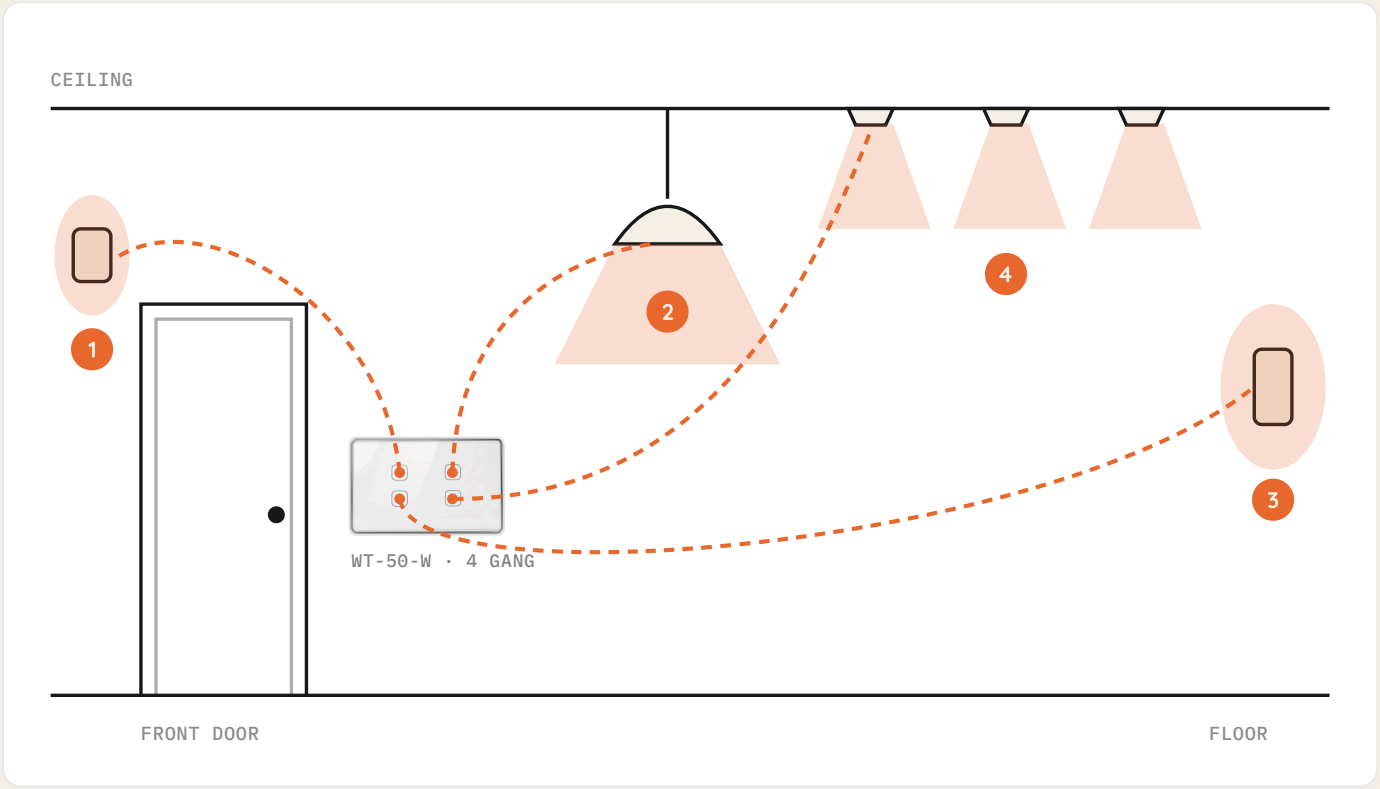


Wall finishes are illustrations. Every WT-50-W shown in white.

ONE KEY, ONE CIRCUIT

Plan every room.

Each touch key switches its own lighting circuit. Example: a WT-50-W 4 gang by the front door.



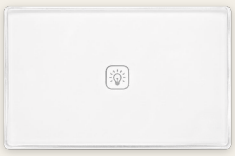
KEY 1 · Porch light

KEY 2 · Pendant

KEY 3 · Wall light

KEY 4 · Spotlights

IDEAS · WHICH GANG WHERE



1 gang

Bathroom, storage or a corridor with a single light.

2 gang

Bedroom: ceiling light and bedside lamp.

3 gang

Living room: pendant, spotlights and wall lights.

4 gang

Entrance: hall, stairs, spotlights and porch.

CHOOSE YOUR GANG

One key for every light circuit.

1 KEY

1 Gang

Controls 1 lighting circuit

2 KEYS

2 Gang

Controls 2 lighting circuits

3 KEYS

3 Gang

Controls 3 lighting circuits

4 KEYS

4 Gang

Controls 4 lighting circuits

WHY IT WORKS

Touch keys

Tap the bulb symbol to switch the light.

Wi-Fi

Connects to your home Wi-Fi network.

Glass-look panel

A smooth, flat front with a slim edge.

Clear symbols

A bulb symbol marks every touch key.
